WHO is Safeware®?

Fleet SystemSure is provided by Safeware, The Insurance Agency, Inc.. Since 1982, Safeware has issued coverage for more than \$1.6 billion dollars worth of computer hardware, media and software. As our customer, you can expect quality insurance products, prompt service and timely processing of claims. Fleet SystemSure is underwritten by American Bankers Insurance Company of Florida. This company is rated "A" (Excellent) by A.M. Best Company, an organization that rates insurance companies based on financial strength and operating performance.

WHAT Is "Fleet SystemSuresm" ?

Recognizing the increasing use of notebook computers in the everyday learning activities of students, Fleet SystemSure was designed to cover the perils that can damage or destroy them. It is designed for today's students who travel with their computers and face an ever-increasing risk of theft and accidental damage.

WHEN Does It Protect?

Fleet SystemSure protects in the event that certain physical losses occur (many of which are not covered by standard warranties) at home, school or on the road. Such unfortunate happenings as theft, accidental damage, vandalism, power surge, lightning strike, flood, fire, earthquake and other natural disasters are covered by Fleet SystemSure. Safeware offers this policy to cover the expenses of repair or replacement of the insured computer *with no deduction for depreciation and a reasonable \$100 deductible* when covered perils occur.

For example:

Accidental Damage: A student accidentally slips and falls while carrying a notebook computer, resulting in a cracked screen.

Vandalism: Vandals knock a notebook computer out of the hands of an unsuspecting student, causing the case to become damaged.

Theft: A student's notebook computer is stolen from the cafeteria. A police report is filed. The computer is never recovered.

Fire: A fire breaks out in the classroom. The computer is a total loss.

Fleet SystemSure protects in so many ways, but it does not cover losses due to mechanical breakdown, data reconstruction, and loss or damage from fraudulent, dishonest or criminal acts by the owner or user. Also excluded are repairs covered under the manufacturer's standard or extended warranties.
